Chemoil To Start Bunkering Operations At New Orleans

SINGAPORE (Dow Jones)--Marine fuel supplier Chemoil Tuesday said it will restart bunkering operations at the U.S. Gulf Coast port of New Orleans from next month after a gap of six years.

"New Orleans...fits very well for Chemoil as part of our wider offering throughout the U.S. Gulf and Central American--in Houston, offshore U.S. Gulf and Panama," Adrian Tolson, vice-president of sales and marketing, said in a statement.

The company said it will offer both 380-cst bunker fuel and marine gasoil at the port.
