**Increase in Houston Barge Fuel Surcharge**

Dear Customer,

Due to increased operational costs in the Houston area, bunker barge operators will be increasing the "Barge Fuel Surcharge" for all barge deliveries. Effective for all Chemoil barge deliveries **March 12, 2008** or later a "Barge Fuel Surcharge" of 30% will apply to all barge delivery rates. This is an increase from the current "Barge Fuel Surcharge" of 25%.

You can find all current delivery charges for all of our ports at [www.chemoil.com](http://www.chemoil.com).

Best Regards,  
Chemoil Corporation
